RAYMOND RECORDER

No. 50 Vol. 2 Thursday, April 10, 1952

THE RAYMOND LION

7. "To aid my fellow men by giving my sympathy to those in distress, my aid to the weak, and my substance to the needy."

When the founders of Lionism formulated that sentence they must have had in mind the words of Him who said, "... and the greatest of these is Charity".

They must also have thought of that other, for whom the only name we know is "The Good Samaritan," who picked up from the roadside the man who had fallen among thieves, and took him to an inn, and nursed and cared for him.

Before all else these pioneers of Lionism placed sympathy for those in distress. It is sympathy which makes brother of men in time of mechanical uninspired giving, and that warm, brotherly spirit in which one divides his portion of trouble. It is sympathy which marks the difference between cold, mechanical, uninspired giving, and that warm, brotherly spirit in which one divides his portion of good with someone less fortunate. They recognized the great truth expressed by Lowell:

"Not what we give, but what we share,
For the gift without the giver is bare."

Genuine sympathy leads always to a desire to give aid to those who need it. The Good Samaritan gave first his sympathy; then his sympathy moved him to take up the wounded man and care for him.

The man who gives of his abundance without sympathy, without brotherly feeling, is not charitable in the true sense of the word. For charity must have the flavor of courtesy or it is not real charity but ostentation, or pride, or some other quality wearing the mask of charity. Mere giving of substance, whether money or food or clothing—whatever it may be—without the sense of sharing, neither thrills the heart of the giver nor inspires a sense of gratitude in the recipient. It is as if a man invited a guest to his house to dinner and then went away from home and left the guest to dine alone.

But the man with true charity in his heart first feels sympathy for the unfortunate; then he aids him in any way possible; and finally he gives of his substance—divides with his poor brother—and both are the better for having met.

Charity does not require great wealth. Indeed, those most quick to give their sympathy, to render aid, and to share their possessions with others less fortunate, often are found among those who are themselves in need. The great work of the Lions in this regard is not merely—not even chiefly—in the relief they give to the poor and needy. When they have taught the people of their community the true practice of charity, they have done a noble work.

It is never too soon to be kind, for we never know how soon it will be too late.

A lady was entertaining the small son of a friend. "Are you sure you can cut your own meat, Tommy?" she inquired.

"Oh, yes, thanks," answered the child politely, "I've often had it as tough as this at home."

Snaps and Scraps

Don't ever think an apology is an admission of weakness—only strong people can make them.

It is that time of the year when rugs and curtains hang on the line in the spring breeze, and friends husband has but one wish. "... Why, oh why did ever? ..."

Lloyd C. Douglas began his writing career when he was fifty-two years old. When he passed from this world at the age of 73 in the year 1951 he had published eleven novels which had sold seven and a half million copies, and had been translated into all of the principal tongues of the world.

Mr. Douglas was born in Indiana where his father was a village parson. His father's dream was that Lloyd would follow in his footsteps and in the year 1903 the dream was fulfilled when Lloyd Douglas was ordained into the ministry. He married a clergyman's daughter.

His first novel "The Magnificent Obsession" gave him the idea of writing books to teach Christian living to the world or those who were interested in reading his books.

When he retired from work he had time to remember and he wrote his life story and called it "Time To Remember". It came to our library early in the new year.

New Books This Week

The Rising Storm by Dennis Wheatly
And Answer None by Alice Lent Covert

Signal Thirty-Two by MacKinlay Kantor

Voyage to Windward by J.C. Furnace

A Game For Empire by Pearl Frye

Non Fiction

Diesel-Electric by Billings

Construction Ahead by Billings

Play With Vines by Millicent Selsam

There are also twenty Junior Books

The Readers Progress Club met for their April meeting at the home of Mrs. Laura Hirsche with Mrs. Doro thea Roberts as assistant hostess. Seventeen ladies were present to hear Mrs. Verland Leavitt of Blairmore give a most interesting review of Alice Tisdale Hobart's latest book "The Serpent Wreathed Staff".

The Club decided to attend the luncheon given for Mrs. Louise Riley, one of Alberta's poets.

In keeping with the season, the ladies wore their Easter Bonnets and the prize for the most original went to Idale Kenney. Betty Evans was a special guest.

A delicious Easter luncheon was served at the close of the meeting.

Give To Conquer Cancer

Friday evening Mr. and Mrs. Lawrence Turner entertained in honor of Mr. and Mrs. Grant Paxman. Games and a delicious lunch were enjoyed by the Bob Brandleys, John McPhees, Herb Bishops, Allen Jensens and Bill Bowdens.

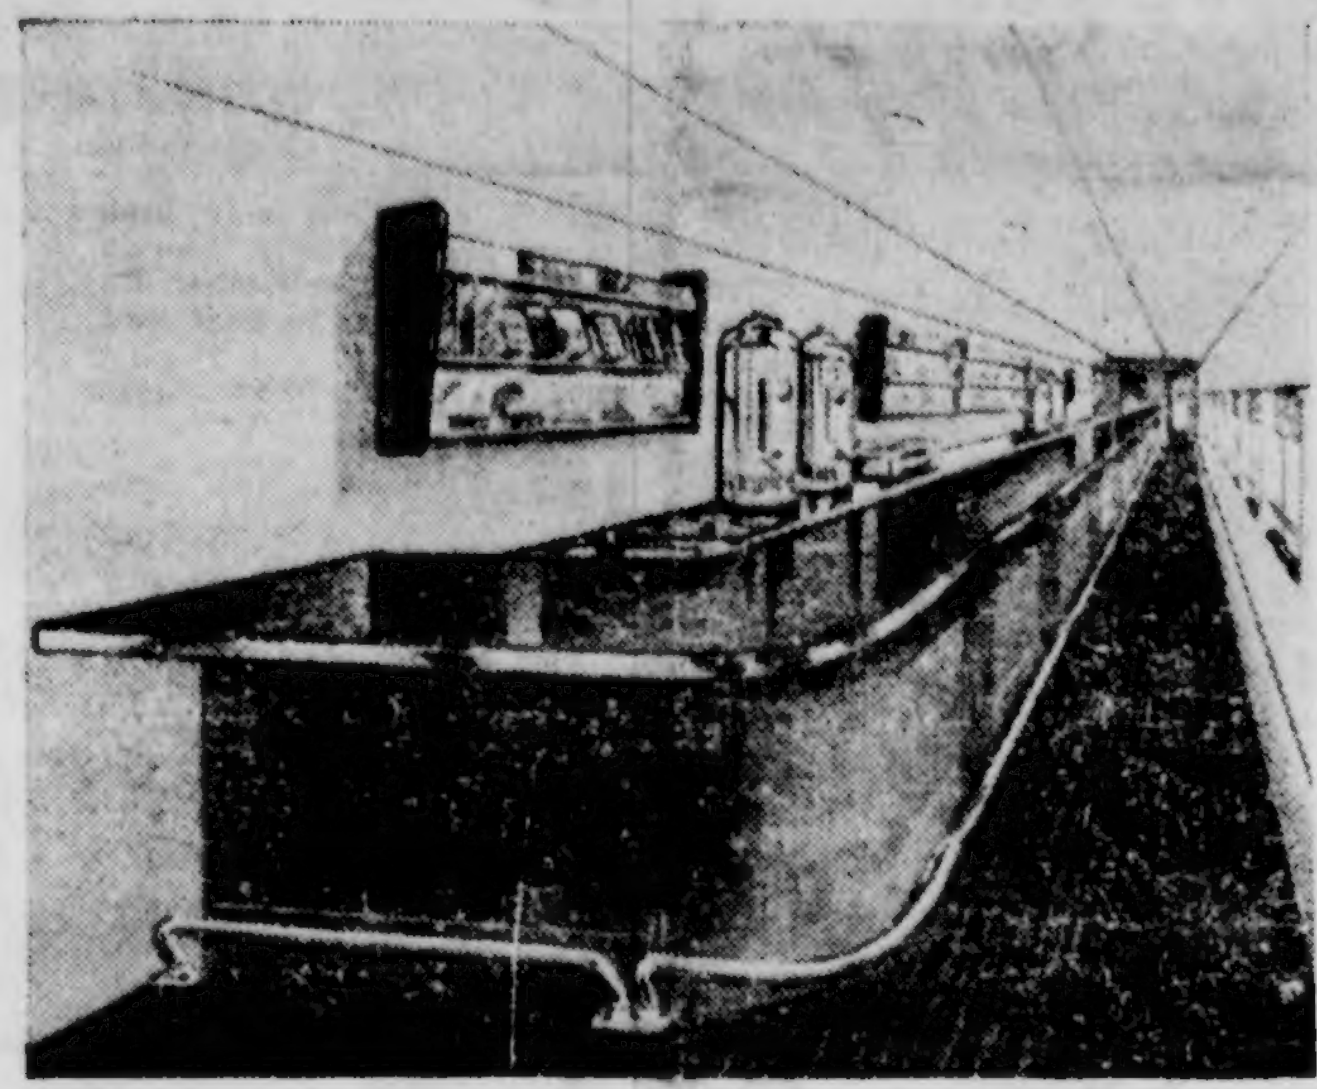

The honored guests were presented with a book from the group in remembrance of the good times had together.

Thanks To One And All

The Gode Engelkal Committee wish to offer their thanks and sincere appreciation to all those who helped make the program such a success. It was gratifying to see such a splendid turn-out and to have such co-operation from the artists who appeared on the program.

—The Committee

(Editor's Note: The write-up of this program will appear in our next issue.)

New Restaurant Car

An artist's impression of the interior of the new restaurant counter cars which will go into service soon to feed over 50,000 immigrants which the railway expects to carry from eastern Canadian ports to points across the country during 1952. The new cars follow a design conceived by the C.P.R.'s sleeping and dining, colonization and mechanical departments after tests conducted last year with stripped-down standard dining cars proved the need for newly designed equipment. Their aim is to provide less costly meals more quickly in a setting which will make the traveller feel at ease.

He's Glad They Didn't Touch The Cakes

If any parents in town see their young sons suddenly start pruning their fuzz with a Sunbeam Shave-master, take a good look in their mouths and see if there is a wad of gum there. If that evidence is there, take a look in their pockets and see if there is about \$2.50 in small change in the linings. If all three things are found, take the lad over your knee and do your duty 'cause he got all that stuff from the Raymond Bake Shop on the night of Good Friday after he broke the back window to gain entrance to the shop.

Although Roy was upset at the glass on the floor and no razor in the box he was relieved to find that a couple of beautiful birthday cakes he had spent a lot of time doing had not been disturbed—Of course he was also happy that the youthful yeggs didn't bring a truck and load it with his complete stock of bars etc.

Give To Conquer Cancer

Mr. and Mrs. Ralph Meldrum entertained Sunday evening in honor of Mr. and Mrs. Fisher. Mr. Fisher was recently released as Mission President in Edmonton and is now living in Hillspring.

Guests were relatives of the honored guests, Mr. and Mrs. Gerald Gibb, Mr. and Mrs. Godfrey Holmes, Mr. and Mrs. J. L. Gibb, Mr. and Mrs. Gerry Gibb, Mr. and Mrs. Dean Wilde, Mr. and Mrs. Evan Stringham and Grandpa Stringham. A wonderful time was had visiting followed by a delicious lunch.

THE NEW RAYMOND RECORDER

Engagement Announced

Mr. and Mrs. Pete Coppleters wish to announce the engagement of their second daughter, Jeanette Mary, to Joseph Andrew Molnar, second son of Mr. and Mrs. Steve Molnar, all of Raymond. The wedding will take place in early May.

BOYS AND GIRLS WEEK

WHEREAS, the future depends, to a great extent, upon our service to youth today; and

WHEREAS, many communities throughout the world which recognize the need for focusing attention on youth's problems and achievements are joining together to observe "Boys and Girls Week" from April 26 to May 3; and

WHEREAS, each day of this week emphasizes a subject of importance to the development of youth of our community — Citizenship Day, April 26; Day in Church, April 27; Day in School, April 28; Family Day, April 29; Careers Day, April 30; Health and Safety Day, May 1; Day of International Understanding, May 2; and Day of Recreation, May 3; and

WHEREAS, the development of an active program for each of these days will give our boys and girls practical experience in "LEARNING TO SERVE";

NOW, THEREFORE, I, Frank R. Taylor, Mayor of the Town of Raymond, do hereby proclaim the week beginning Saturday, April 26, and ending Saturday, May 3, 1952, as "BOYS AND GIRLS WEEK".

In witness whereof, I have hereunto set my hand and caused the Seal of the Town of Raymond to be hereto affixed this 19th day of March, 1952.

(SEAL)

"FRANK R. TAYLOR"

Mayor

A new sign has been added to the front of the cold storage building.

More Of Raymond's History

Again we thank Mrs. Elizabeth Kling for more of Raymond's early history. Future generations will also have great cause to give thanks to Mrs. Kling for if it were not for her efforts the history of our town would be a matter of memory and conjecture.

What could almost be called a life's work by a very fine woman is now being kept at the Town Office in the form of a large and complete History Scrap Book that was presented by Mrs. Kling last year. It is well worth the time and effort of anyone and everyone to stop and look through this book—A word of warning though: do not plan to spend only a few minutes at the job. It is so interesting and time flies so fast that even an hour is not enough time to do the book justice.

As 1902 is the Golden Anniversary of the organization of the Raymond Ward Primary and Relief Society and the organization of the Eastern Circuit Sunday School, Relief Society, Primary, YM and YLMA and Religion classes, it seems fitting that mention should be made of these important facts.

These organizations took place as follows:

Raymond Ward Relief Society February 23, 1902. Emma J. Bevan Pres. Raymond Ward Primary, March 23, 1902. Susie Rose, Pres.

Eastern Circuit Sunday School, September 14, 1902. L. H. Holbrook, Supt.

Eastern Circuit Primary, September 3, 1902. Mary Head, Pres.

Eastern Circuit Y.M.M.A. September 3, 1902. Francis Kirkham, Pres.

Eastern Circuit YLMA, September 3, 1902. Jennie B. Knight, Pres.

Eastern Circuit Religion Class, September 3, 1902. Zebulon Jacobs.

(The Eastern Circuit was the Eastern part of the Alberta Stake under Pres. Chas. Ora Card. These organizations were in operation prior to the organization of the Taylor Stake, No. 2 killer—so give your donation generously when the canvasser calls.

The following are excerpts taken from Minutes during the year 1902.

January 5th—The first meeting of the new year was held in the new Church built by Jesse Knight.

"Religious Services were conducted in Raymond Ward House on Sunday afternoon. Counsellor Jos. Bevans presided. The Saints sang "Come Listen To A Prophets Voice". Prayer by Elder Herbert Cook, followed by the hymn "Zion Stands With Hills Surrounded". The Sacrament was administered by Counsellor Jos. Bevans and Milton L. Scott. Elder James Hawkins and wife were received as members of the Ward. (first members). Counsellor Bevans announced this to be Testimony Meeting and the following bore testimony:

R. S. Betts, Henry Fairbanks, H. A. Jones, Milton Scott, Chas. McCarty, Alsinio Holbrook, Geo. C. Munns, John H. Magdell, Mrs. Chas. Selman, Herb ert Cook, Raymond Knight, Alice Bevan, and Hannah Gibb.

Saturday evening the Harlan Taylors, Ralph Walkers, Gordon Stones, Ger Watsons, Gordon Rasmussens, Gordon Andersons, Bob Brandleys and Joe Keelers joined us at our home for an informal get together. After trying their talents as "Head" Writers we all converged to the local theatre for the last show.

The reading of the "Heads" caused a great deal of amusement after the show while lunch was being prepared.

Local Girls Receive Appointments

Lela Wing has been appointed a Sponsor First Lieutenant and Shirley Allen a Sponsor Second Lieutenant in the Brigham Young University Air Force ROTC Sponsors corps, according to Captain Charles K. Moran, advisor to the group.

Sponsors were selected by a military board of five cadet officers, five senior girls, Mrs. Lillian Booth, Counselor for BYU women; and Captain Moran. Each girl was rated objectively and without comparison.

The purpose of the sponsors corps is to complement the ROTC unit on campus and to promote patriotism and good citizenship. Sponsors participated in ceremonial exercises, reviews and retreat parades. They execute marching and precision drills between halves at games, usher at assemblies, athletic events and at graduation. Members take part in the fall and spring hops as well as the military ball.

There were 75 girls given appointments in this newly organized group.

A Message From The Cancer Committee

The Cancer Campaign in Raymond has been taken over by the Ladies Auxiliary to the Legion. The ladies have been divided into five teams and this way it is hoped they will be able to personally contact everyone in all corners of town as well as the business district. This work is to be accomplished within the next two weeks, which means that they have a very busy time ahead of them.

The Alberta Objective is \$175,000. so please give generously. In 1951 the people of Alberta contributed \$127,000 to Cancer Research, \$50,000 on public and professional Cancer Education, and \$50,000 on Cancer Welfare in Alberta. The latter consists of free cancer dressing service, nursing and home care, special diets and medication, transportation, rehabilitation, etc. As you all know, nothing should be spared in the attempt to bring cancer under control. It is the No. 2 killer—so give your donation generously when the canvasser calls.

If you are missed, contact your local representatives: Mary Thompson, Eileen Phillips, Flo McKean, Louie Winters, and Fern Thompson.

Card of Thanks

Mrs. W. H. Zobel wishes to express her thanks to her many friends who visited her and sent cards during her recent stay in the local hospital. She also wishes to thank the Women's Institute and the doctors and nurses.

Ronnie Minion Is Tops In 80 Pound Class

Ronnie Minion won the Southern Alberta Boxing Championship 80 lb. class Wednesday night at the Lethbridge Civic Centre when he took a decision over Norbert Fox of St. Jones, Milton Scott, Chas. McCarty, Mary's Indian School. He had earned two wins at the Cardston eliminations the week before by defeating Wallace Kostelanski of Barnwell and Bobby Eyre of Jefferson.

The young boxer worked under the training of Delmar Broadhead and C. J. McLean.

We are happy to see Herbe Wilde and John Horvath up and around these days after undergoing operations. John's was performed in Calgary and Herbe's was performed in Edmonton.

It's good to see you both back and we hope your conditions improve steadily.

Who's Putting Up The Cash?

Rumour has it that Canada's current investment boom is being financed mainly by imported capital. Canadians with money to invest aren't interested in developing the country's resources; they prefer to sit back and let foreign investors—chiefly Americans—take the risk and the rewards. Or so the story goes.

It's a familiar theme. We hear it often. A provincial cabinet minister was discussing the situation the other day at a service club luncheon. He put it this way:

"Shall we always have to depend on our neighbour's eagerness to capitalize on our lack of imagination and daring...?"

Or shall we, as Canadians, decide once and for all that we could do this job all by ourselves and reap a greater share of the benefits to be derived from the exploitation of this, the most promising country on earth?"

Twenty-five years ago, this kind of talk might have made sense. It does not today.

In the mid-twenties, about half of Canada's new annual investment was being financed from foreign sources. But in recent years things have changed.

Statistics presented in the House of Commons last month show an entirely different picture for 1951:

"There has been \$4.5 billion in new capital flowing into new factories, new mines, new transportation, new hydro electric plants and so on in just the last year", Mr. Sinclair, parliamentary assistant to the Minister of Finance, noted. "Only \$800 million of that was foreign capital, and the remainder was Canadian, out of our savings, personal and corporate."

In 1951, in other words, Canadian money was financing more than \$2 per cent of our new investment.

We're not trying to minimize the importance of foreign investment money. There is a lot of US risk capital coming into Canada. We're glad to get it, too. It's playing a very valuable role in our national expansion, and it has helped boost our currency to its strongest position in years. But at the same time, let's not depreciate our own efforts.

The fact is that Canadians are investing large sums in their country's future. It's also a fact that they could be making an even greater contribution if more than half of all company profits were not being drained away in taxes.

Mr. and Mrs. Melvin Wall of Taber "JET". The only polish for hot stoves were visitors in town this week with "JET". You're all set. All Stores.

Give your SEED GRAIN an EXTRA CHANCE

Unfavorable harvesting conditions may have made your seed grain low in vitality, poor in germination—subject to root rot and other soil borne diseases. It will pay you to treat seed grain with Leytosan or Leytosol.

LEYTOSAN

Leytosan mercurial dust checks root rot, controls smut and leaf stripes of oats and barley. Mercurial Dressings are the only form of seed treatment effective with smut, root rot and increased germination of all grains.

LEYTOSOL

Leytosol (wet treatment) effectively controls smut, root rot and soil borne diseases, increases germination. Has NO SMELL, no dust, no fumes.

The B. F. Goodrich Life-Saver Tube less tire, the only tire that protects against all three driving hazards—blowouts, punctures and dangerous skids, is now available for the first time in this area.

A tire that needs no inner tube has been the aim of tire and automobile manufacturers since the pneumatic tire was developed. This new product, proven in four years of use by thousands of motorists in the United States has attained this objective.

To prevent punctures, a layer of gummy rubber compound has been built into the tire under the tread. This gummy compound adheres to any puncturing object and effectively seals any holes without loss of air when the object is removed.

Other safety features of the new tire include a special lining built into the wall of the tire to protect against blowouts and a new anti-skid type tread. This safety tread is made with thousands of tiny flexible 'grip-blocks'. These 'grip-blocks' hold the road like a tank track. In wet weather their flexible action wipes the road dry for safe, sure traction—so dry you can actually light a match on the tire track.

The Tubeless Tire fits all standard wheels. Rim-seal ridges molded on the tire bead form an air-tight lock against the rim and keep the tire firmly in place.

The tubeless tire principle was first developed for use on US Army combat vehicles in 1942. It was perfected for use in automobile tires in 1946 by the B. F. Goodrich Company and after exhaustive tests was offered to the motoring public in the US or the first time in 1948. They are now being offered to Canadian motorists as a proven product.

SPRING IS HERE!

Raymond Cleaners

What's In A Name

Plumbers are now sanitary engineers; a foreman is a director of personnel; a cook is a chef; a boarder is a paying guest; the hired girl is a maid; paper hangers are interior decorators. We don't repair anything any more, we recondition it. Billboards are poster panels. You can rent out a woodshed if you call it a studio.

We are living in an era of names. Business and professions are influenced not only by what they are, but by what they are called.

WANTED a new kind of CRUSADER

... to help fight the strangest, strongest foe the world has ever known... **CANCER**

Cancer that will kill 2 million living Canadians unless it is controlled. Cancer that will cause untold suffering and anguish... unless it is checked.

This crusader's name? It could easily be your own. You see he is any generous person, fighting cancer by giving freely to the Canadian Cancer Society's Cancer Crusade.

§ He believes the light in the "lab" must not be extinguished.

§ He believes his fellows must learn to recognize the symptoms of cancer and the need for early diagnosis.

§ He believes more doctors, nurses and research scientists must be trained to carry on the fight so well begun.

Will you be that kind of crusader? Will you help us fight cancer? Remember... a victory now may mean protection for you later.

Without your support we may be defeated. With it, there is nothing we cannot do. Won't you help us by doing all you can in this great crusade?

NOW IN CANADA!
B.F. Goodrich
TUBELESS
TIRE
 THE TIRE THAT EARNED THE NAME
LIFE-SAVER

The only tire that protects you from all three driving hazards... blowouts, punctures and dangerous skids

It's here... the revolutionary B. F. Goodrich Tubeless Tire that needs no inner tube. The air-retaining lining is actually a part of the tire itself.

A DREAM COME TRUE

Ever since B. F. Goodrich built tires for the first automobile manufactured on this continent, the dream of tire engineers has been a pneumatic tire that would need no inner tube. During World War II, B. F. Goodrich research made such a tire possible. It was used on combat vehicles under the most difficult driving conditions. Later the Tubeless Tire was perfected for use on automobiles. In 1946 tests were made on police cars and taxi fleets. It was... a dream come true

... the B. F. Goodrich Tubeless Tire that protects against punctures, blowouts and dangerous skids.

PROVEN ON THE ROAD

The B. F. Goodrich Tubeless Tire has been used for over four years in the U.S.A. by thousands of motorists. Their acceptance and exceptional mileage reports are your guarantee that this is the finest tire you can buy.

B. F. Goodrich Tubeless Tires fit your present rims. No special fittings are needed. The scientifically designed rim-seal ridges form an air-tight pressure lock against the rim. It can't come off... doesn't lose air.

See this revolutionary tire now at your neighbourhood B. F. Goodrich dealer.

PROTECTS AGAINST PUNCTURES

A layer of sealant rubber, under the tread, sticks to any puncturing object preventing loss of air. When the object is removed, the puncture seals itself instantly and permanently.

PROTECTS AGAINST BLOWOUTS

Most blowouts start when a tire is bruised. The damaged casing pinches and chafes the inner tube until it blows. The B.F.G. Tubeless Tire has no inner tube to blow out. Damage to the tire can only cause pinhole leaks that lose air so slowly you have miles in which to make a safe, easy stop.

PROTECTS AGAINST DANGEROUS SKIDS

The Tubeless Tire has an amazing new tread with thousands of flexible rubber "grip-blocks". These tiny blocks grip like a tank tread, giving greater traction than conventional tires... up to 40% more on wet roads... up to 100% more on ice. The flexibility of this new tread increases tire mileage 10 to 15%.

KATE AITKEN

This is one of the latest pictures of Kate Aitken, who broadcasts human-interest news and home-making hints for women, Monday to Friday at 10:20 a.m. on the CBC Dominion network. This season "Mrs. A" is more than keeping up her reputation for living out of a suitcase. She plans to originate her programs in more than fifty cities across Canada, tying it in at each place with special events such as conventions, fairs, fashion shows and community celebrations. Besides these trips, she plans to cover events of international interest in other countries. Her programs will also include budget helps such as recipes for meat-saving dishes and home canning, tips on making extra money at home, and suggestions for clothing the family on a small income.

The Lawn

A healthy, well kept lawn is a vital part of every garden. It is just as important as shrubbery, flowers, and trees and it is the best of all centre pieces for showing off any display of bloom or an attractive house. There are only a few fundamentals to bear in mind. The first of these is good quality seed especially prepared for lawns, not just some cheap, coarse grasses which will soon become ragged. The second point is to realize that grass is a plant and needs food and care just the same as a flower or vegetable.

Grasses thrive best in cool damp weather, therefore it is important that the ground be prepared and the

seed sown as soon as possible in the spring, and in any case before the really hot weather commences. If this is not possible one should wait until early fall.

Because lawns are permanent, it is much easier to get the soil well worked, fine and level before seeding than afterwards. For obvious reasons the seed should be sown on a day when there is no wind and it is best to go over the plot twice, broadcasting one way and then the other. Because the plants are tender at first especially, it is advisable to cut with a very sharp mower. Well rotted manure, and chemical fertilizers rich in nitrogen are recommended for lawns and also an occasional application of bone meal. Well fed grass will crowd out most weeds. The rest can be handled with some of the new 2-4-D chemical sprays.

Nursery Stock

Shrubbery, vines, roses, trees and other nursery stock should also be planted as early as possible. This is especially true where the climate is dry and extra watering is difficult. The main thing is to make sure that the roots of the new stock are kept away from air and moist by transit and planting. All these things should be planted with the roots spread out loosely, then covered with fine, rich soil, pressed down. If at all possible

Good nursery stock is soft and pliable and well supplied with good live buds. The latter, however, should not be far advanced. The nearer a plant gets to leafing out the more difficult the transplanting.

Informal is Best

It is usually a mistake and especially so where space is limited, to be formal in planting about the house.

Straight rows of flowers, shrubs and trees look stiff and artificial. Flowers particularly will make a better show if arranged in clumps with the smaller sorts in front and the larger one grouped to the rear. The same is true of shrubbery. Unless the grounds are very large, one should be content with only one or two trees. The main idea is to screen a bit of the house and the fences here and there but not to hide the lines completely. With shrubbery and trees it is important to remember the full size at maturity and allow plenty of room. Big things planted close to walls will have no room to develop properly.

— Canadian Seed Trade Association

Gail Watson, daughter of Mr. and Mrs. C. B. Watson celebrated her 7th birthday this week with twenty of her friends. Games and lunch were both enjoyed.

Good character is that quality which makes one dependable whether being watched or not, which makes one truthful when it is to one's advantage to be a little less than truthful, which makes one courageous when faced with great obstacles, which endows one with the firmness of wise self-discipline.

Mr. and Mrs. Joe Keeler, who have been living in town this winter have moved out to their farm.
